“ *I have known Dr. Billy Kirksey for over 20 years and have had the pleasure of calling on him professionally these last few years. He was very inspirational to me, as he was to so many, when lung cancer was discovered in my wife. He was a customer, friend and mentor and will truly be missed. He showed me the pictures of the mountains and was excited about going there and retiring. God is now giving you eternal mountains. Thank you, Billy, for being you. My deepest sympathy to the family.*

“ *I just wanted to let you know your family will be in our prayers. Dr. Kirksey and I had a relationship starting in 2002-Present. I was a new medical sales rep with Cardinal Health. He took time and showed me the ropes and made me a better salemen, person. I respected Dr. Kirksey and hold him in VERY high regard. I heard the news today and wanted to say Thank You "doc" for all you taught me and I WILL MISS YOU. You are truely one of a kind and I wish we could have gone on that quail hunt we discussed many times. Every time I see a Scottish Terrior I think of the drawings you had in your office. I wish your family the very best and will keep them in my prayers. Last month when you texted me you said you had two years left until you retire. That came quicker than we expected and just want to say THANK YOU for everything. Rest in Piece - Shawn Murphy*
