“ *In Loving Memory of Aunt Kathy*

Aunt Kathy was truly a remarkable soul. Though we weren't related by blood, she embraced me as family without hesitation, and I always felt the love of a real aunt in her presence.

She was strong, outspoken, and full of life — never afraid to say what was on her mind, and always ready to have a good time. One of the things I'll never forget is how she always called me by my middle name, "Becky." I don't think she ever once used my first name, and honestly, I loved that about her.

One of my fondest memories with her was during a sleepover with Monica and some of her friends. We woke up to find all of our bras mysteriously missing — only to discover that Kathy had taken them and frozen them! She had us all in a tizzy, laughing and yelling, completely caught off guard. That was Kathy — always keeping things lively, always making memories.

Living far away has meant missing out on time with the people who matter most, and that's something I've always felt when it came to her. I love you, Aunt Kathy, and you will always have a special place in my heart. Thank you for the laughter, the love, and the warmth you gave so freely. You will be deeply missed.

*Love
PANSY "BECKY"*
