“ *I have very fond memories of Mrs. Jones, she was always such a pleasant person to work with. I was very young, only 18 years old when I worked with her in the office of Belks Downtown from 1978 - 1980. She was very dedicated and young at heart. I loved that about her. I saw her a few more times during the early 90's, usually at the post office, one day we were talking and a young man passed by and complimented her on how wonderful she smelled, she smiled happily and said she wore "Red" cologne. I teased her that she was still catching attention of nice gentlemen and we laughed. She was a truly delightful person and I'm so glad our lives passed by each other once upon a time. Keep on smiling Mrs. Jones.*
