“ My 88 yr old mother recently asked me about Dr. Lassiter, I told her I would look him up, sadly I just did, only to find out that he has passed away. Dr. Lassiter was our family doctor since I can remember. He treated all of his patients like family, with the utmost respect and love. He was my personal doctor from as far back as I can remember until he moved to Albany from Arlington. He is, and will continue to be missed like a close family member. He always spoke so lovingly about Ms. Julia, and he was so broken hearted when she died, now he is with his soulmate, the love of his life again, for all eternity.

“ Dr. Homer Lassiter was the real deal. I became one of his advisors over 20 years ago, all though he was so smart he need very little advice. My good fortune was to meet with him twice a year in person. Always friendly, cheerful and caring. Blessing to his family, he had a great life and he knew he had a great life. George Williamson

“ *Dr.Lassiter treated me for many sore throats and other childhood illnesses (Arlington.) But the most memorable was putting a cast on my broken arm when I was in 2nd grade. It was a compound fracture and I had to sleep sitting up for 6 weeks. Once I went in for a checkup and my mom had washed my cast— all the signatures were gone. He rewrapped it and gave me another opportunity to get new signatures. I was so happy. When the cast came off, he used a rubber saw and promised it would not hurt. It tickled. It was an honor to be asked to play with his kids when he took “Miss” Julie out for an anniversary or birthday. I had the most fun playing the Twister game with them. God bless you all!!*

Dr. Lassiter was our family Doctor for years when we lived in Edison and Leary. Oncexwhen I was about 13 years old I was home sick and couldn't stop coughing so Mom called Dr. Lassiter at home. It was a weekend early evening and he was home having a dinner party . He told Mom to drive to his home so she took me and we pulled up to the steps. He came out with his medical bag. Gave me a shot of something. Don't know what it was but I stopped coughing. Fell asleep and slept for about 14 hours. Best sleep ever and was fine the next day. I was just telling this story 2 days ago and then saw a post on Facebook that he had passed. Great man and Doctor.
