“ *I am grateful to have known Letty since our graduate school days at Penn State. She was truly one of the most intelligent and thoughtful persons I have ever known. It was wonderful to see her in August at the reunion and I am saddened and will miss her terribly. My deepest sympathy to her family and many friends.*

“ *I am also one of Letty's many Maine friends. I visited her in Albany several years ago with Marjorie Cormier, and what a time we had. Letty was the perfect hostess, showing us so much of the area and sharing her family history. But my memories of Letty go back twenty-one years when I came to work at UMaine/Farmington. She had such a curious mind and so many great ideas. Over the years we became good friends, and I treasure the many memories we created. I miss her and feel blessed to have been her friend,  
Sincere condolences,

“ I was one of her students in the 60s. What a lovely person then. I often think of her classroom when going over my pictures with my children and grandchildren. God bless you, her family in your grief..

“ We met at Penn State as grad students. I remember Letty as a gentle and gracious woman, so devoted to women's issues and equality. I regret I was unable to visit with her last August in State College because of prior commitments of my professional life. It seems to me that she touched many lives.

“ Letty and I met 33 years ago at Penn State and I treasure the friendship we shared. We used to talk on the telephone for 2, 3 or 4 hours at a time and Letty called it a mini-vacation. We decided to go to the Penn State reunion a day early so we could have another of those mini-vacations - and yes, we stayed up until the early morning hours talking. We spent part of our time at the State College market where local folks had brought their wares - fruits, vegetables, flowers, etc. for the day. Letty found some beautiful flowers. She commented that it would be so great to buy a bouquet for everyone coming to the re-union and have them placed in their rooms to welcome them. That was Letty! Her friendship was a great blessing in my life. I miss her.

“ Letty has been a very good friend for a long time. We met in graduate school at Penn State in the 1970s. Our friendship developed after she took a position at the University of ME and I was on the faculty at the Univ. of MA-Amherst. We took vacations together to Maine several times, Nova Scotia, New York State, Massachusetts, and spent Thanksgiving together at my home in S. Deerfield. She loved bittersweet so we went out looking for it and came home with my car trunk full of it. The house looked beautiful. When I moved to Laramie, Wyoming, she came for a two-week vacation. We traveled up to Glacier National Park where we camped with friends from MA for two nights. Letty said there were some things in life you do just to try and camping for her was one of those things. She planned to never do it again. I still smile when I think of that trip. We frequently talked on the phone, exchanged letters, books, and newspaper clippings. She had quite a sense of humor and was fun, but not frivolous. She was quite passionate about injustice and concerned about the well-being of others. The last time I was her was in early August at the reunion of faculty and students from our graduate department at Penn State. I called her in the hospital on Saturday morning on October 22, when she told me the doctor had indicated that she might be going home the next day. Her sudden death was shocking; it has left a hole in my life as it has for her other many friends and family members. I would love to talk with her other friends and family to reminisce and share photos.

“ I am one of Letty's many Farmington friends. She was a wonderful sincere person who I greatly admired. When I visited her in her home in the spring of 2003 she made sure that I was treated to the best of everything. We took many trips and learned all about her family history. The highlight was a trip to Leslie to see her family home. It was a delight to hear the stories of her childhood and actually see the rooms she grew up in. I have photos that I intend to share on a website at a later date. If anyone would like to contact me about the site, my address is [cormier@mainewest.com](mailto:cormier@mainewest.com) I can not believe that we will not hear her sweet voice again. Sincerely and my deepest sympathy.

“ Just learned of Letty's death in checking the Times Recorder. We have been out of town and only just returned. Remembering her and Denny brings back many memories of the days growing up in Leslie. Please know that I am saddened by her passing.

“ Our prayers and thoughts are with your family at this time. The Pryors were always good neighbors and friends. When Letty would see me, she would usually comment about Mama and Mrs. Letitia and some of the things they would do(which always gave us a good chuckle).

“ *My family, The Paces, in Leslie, have always thought so much of 'Miss' Letitia and Miss Letty. We were neighbors for as long as I can remember. Miss Letty has always been a part of our Leslie family even though she hasn't lived here in a while. She will truly be missed. Our thoughts and prayers are with you and your family during this time.*
