“ At DeKalb Tech, Mary exemplified the high-tech, high-touch way of life. She was light-years ahead of others in computer programming, and she brought home-made cookies for the community classes. People who had feared computers found a warm and kind human being in Mary, so they could take the leap of trying something new. My prayers are with you.

“ *As the CIS Department Chair, Ms. Sapp was one of several individuals that interviewed me when I applied to work as a CIS instructor at DeKalb Technical College. Although she retired just after I began working at DeKalb Tech, I remember her as being a very kind-hearted and caring individual. I am very sorry to hear of her passing.*
