“ *Merideth my sweet Mer that's what i always called you. I worked with you for many years you were always kind and sweet. Always had me cracking up. If I had a question about flowers I could come to you and you would help me out. we would talk at lunch about what flowers we had growing at our houses. I will truly miss you.*

“ I worked with Merideth at Center for Primary Care for years. She was and will always be a true friend. I admired her strong spirit in life and now in death. We shared a love for animals and I know she will make sure all of furry friends in heaven will be taken care of. I will miss you friend....always!!
