“ *Mr Coleman, I still remember the first day you walked in the dialysis clinic stating you wanted to transfer to our unit. TTS patients will miss you dearly....as they all called you DJ. You always had the good music playing on your phone bringing back good memories for you, as for them. I'm sure you're playing your "good music" in heaven now. 🙏🙏 our deepest sympathy to your Wife and Children.*

“ So many memories of the times we all shared together. Good food, all day card games, Jello shots and lots of fun. I pray that Denise, Michael and Brittany will gather comfort in each other as well as in God's mercy for Michael. He can rest easy now. It will be a hard road to travel but all you can do is take one step at a time and one day at a time. You are surrounded by people that love you and that loved Michael. Tony and I are two of those people. Love and prayers.....

“Michael you will be truly missed. You were a great person. You loved your late mother Auntie Shirley. I know she is happy to have her baby Michael with her. I know you both are cooking a feast. You loved your family unconditionally and you were family focus. They were your motivation to keep going and you wanted to make sure that you had taken care of them and prepared them. You did everything a person could have done. I know your brothers are going to miss you dearly. Even though we didn't want you to leave we understand. We don't want to see you in anymore pain. I pray that God gives our family strength during this time and afterwards. Love you always your cousin.

“I had the most amazing conversation with you last night sitting in your chair. I'm thankful for the conversations we had, and the ones we didn't get to have physically here on Earth. I'm always going to wish you were with me, but I'm so happy you're floating through the cosmos with God now. You were an amazing dad to me, but you'll be an even better angel. From the recliner to the right hand of God.

“ You fought a long hard fight and I am going to miss you so much! After 39 years of a life with you I now have to figure how to live without you. God knows best, Rest In Peace and I am comforted knowing your battle to breath is gone and that you never have to go to dialysis again! I love you more than you could ever know!
