“ *I would like to express my deepest sympathies on the passing of Bill Sanders. I worked for Bill back in the 70's and he was one of the only electronic engineers that I ever met who could sit down with just an idea, sketch up a working circuit, then build and manufacture a sellable product.*

“ *I only met Mr. Sanders once and spoke with him on the phone a few times but that's all it took to discover what a wonderful man he was. My dad and Mr. Sanders had a great visit the first time they met. I know my dad was looking forward to many more such visits. I am sure all they talked about was hunting. I will very much miss the opportunity to sit and talk with him but I am sure he will be watching over everyone whose lives he has touched. My condolences and prayers of comfort go out to the family.*
